www.porcelona.com

At PORCELONA, We are a large multinational company, known for our comprehensive vision, diverse workforce, global reach, progressive mindset, and versatile product line.

We manufacture and market top-quality, aesthetically pleasing porcelain stoneware tiles, sintered stones, and SPC floors designed for a wide range of applications, including residential, commercial, and public building projects, whether indoors or outdoors.

UNLOCK
GRACE

Our expertise in proven international management blends seamlessly with the energy and commitment typical of the finest in the ceramic industry.

This synergy embodies the spirit of 'PORCELONA GROUP' and we take immense pride in producing porcelain stoneware tiles, sintered stones, and SPC floors for the world.

About Porcelona

PORCELONA'S global presence includes a headquarter with a Design Studio in Istanbul, TURKEY, where we passionately craft world-class designs and innovative surfaces. This facility is complemented by a state-of-the-art display center and warehouse in FRANCE and our commercial and administrative offices in the USA.

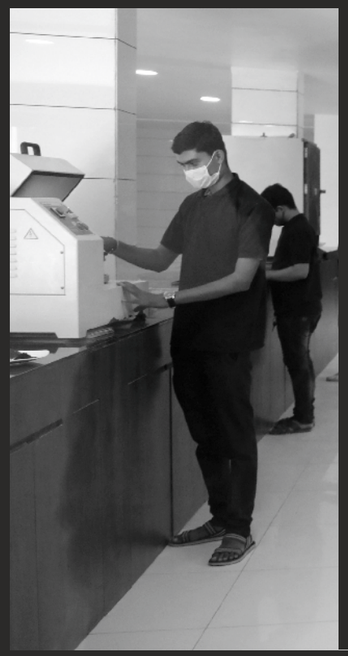
We operate a cutting-edge production facility in INDIA, where we breathe new life into our designs, meticulously crafting premium porcelain stoneware tiles, sintered stones, and SPC floors of the highest quality.

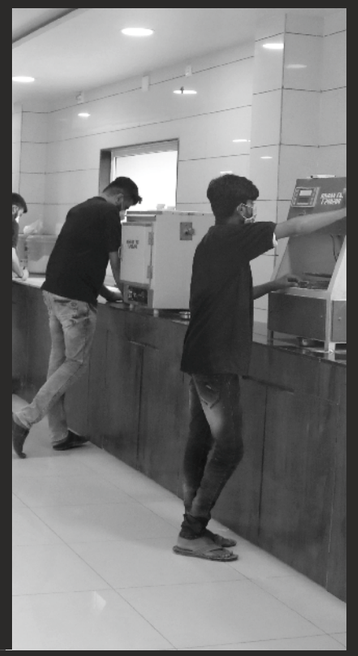
This strategic network empowers us to deliver innovative flooring solutions to customers worldwide, all while upholding our unwavering commitment to quality, sustainability, and customer satisfaction.

Our dedicated team of highly qualified professionals ensures that our products consistently meet the most rigorous standards of excellence. From the careful selection of raw materials to our products' impeccable packaging and efficient shipping, we take immense pride in guaranteeing that PORCELONA customers receive nothing less than the finest products and services."

Quality without compromise is the cornerstone of PORCELONA GROUP's identity..

Our meticulous material selection, advanced techniques, and unwavering commitment to excellence guarantee porcelain stoneware that meets top-tier technical standards and delivers sought-after aesthetics. We uphold these high quality standards through rigorous inspections during production and prior to shipment, adhering to international regulations. Every Porcelona shipment includes a Certificate of Compliance, confirming adherence to ISO 13006:2018 standards based on EN ISO 10545-2 for Ceramic Tiles Regulation





Our dedication to quality is reflected in Porcelona Group's cutting edge industrial plant, a testament to our investment in excellence and innovation. Equipped with state-of-the-art production lines, advanced technology, and automation, our plant ensures impeccable reliability, product quality, worker safety, and minimal environmental impact. This significant investment underscores our commitment to maintaining the highest standards in both technical and aesthetic aspects. At Porcelona Group, innovation in products and technology moves forward hand in hand."

Porcelona Group's state-of-the-art industrial plant is a testament to their large investment in quality standards, ensuring that their ceramic products are proudly made for the world.

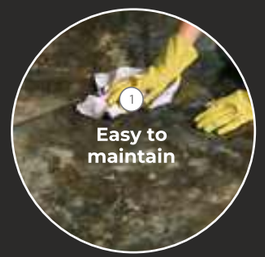
PORCELAIN TILES:
SUSTAINABILITY, HEALTH, SAFETY

Ceramic, which naturally includes porcelain, is a safe, natural material suitable for spaces of all kinds.

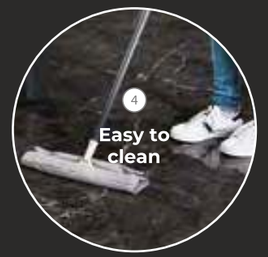
It does not emit any harmful substances, and it is sustainable, incombustible, recyclable and resistant, easy to lay and long-lasting.



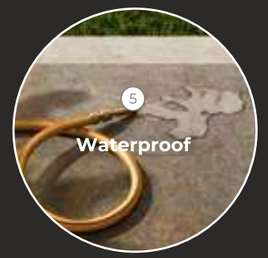
Porcelain tiles do not require any special maintenance

Porcelain tiles maintain their colors even when exposed to continuous, direct sunlight or in contact with atmospheric agents or smog.

Porcelain tiles do not splinter, break or get damaged.



Porcelain tiles are easy to clean.

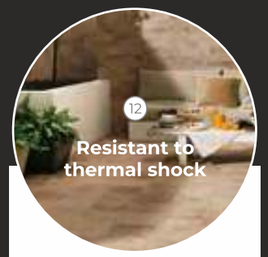


Porcelain tiles are completely non-porous and therefore are not damaged by water or humidity.

Porcelain tiles are waterproof, no liquid can damage the surface.

Porcelain tiles do not stain and resist the most aggressive chemical agents.

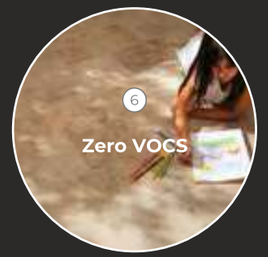
Porcelain tiles are resistant to acids found in food and cleaning products.



A porcelain tile floor will not change as a result of sharp temperature fluctuations.

Porcelain tiles are frost resistant and therefore are not damaged by low temperatures.

HEALTH



Porcelain tiles are intrinsically inorganic and do not emit volatile organic compounds (VOC).

Porcelain tiles contain no PVC, plastics or petroleum derivatives

Porcelain tiles do not contain formaldehyde.

Porcelain tiles are inhospitable for mites, bacteria, fungi, molds, and other irritants.

Porcelain tiles are completely hygienic and inhospitable for bacteria, mites, molds, and fungi.

SAFETY

While porcelain tiles are ideal for use on the floor thanks to their hardness and extreme durability, the light weight and workability of white body tiles make them ideal for use on walls: cuts and holes can be made quickly and easily, reducing installation time and costs.

Non-slip

Porcelain tile surfaces can be made with an abrasive surface grit that can increase traction and reduce the risk of slipping.

Fire resistant

Porcelain tiles are not flammable, reduce the spread of flames, do not burn, and do not emit toxic fumes.

Heat resistant

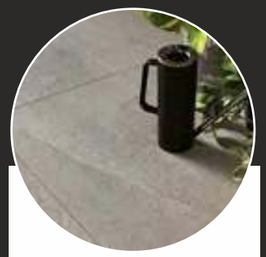
Porcelain tiles do not change shape at high temperatures.

Energy efficiency

The high thermal inertia of porcelain tiles moderates the changes in temperature of the rooms, favoring energy savings.

Ecological

Porcelain tiles have a low environmental impact at all stages of their production, from the raw materials to disposal and recycling.



Recycling and re-use

Porcelain tiles are made with recycled materials, last a long time, and can be re-used because they retain their original appearance.

Ideal for floor heating systems

Porcelain tiles can be effectively combined with floor heating systems.

WALL TILES ADDITIONAL **BENEFITS**

Ceramic material is easy to clean, hygienic and practical; all it takes is a simple, neutral detergent to remove dirt and restore it to its original splendour.

Ease of installation

Cuts, holes, and bevels are easily made and reduce the time it takes to lay the white body tiles.

Extremely easy to clean

White body ceramic tiles can be cleaned with a simple passage of hot water or neutral detergent.

Coefficient of thermal linear expansion	ISO 10545-8	**Declared value** Valore dichiarato			≤ 7MK⁻¹	≤ 7MK⁻¹
Thermal shock resistance	ISO 10545-9	**Pass according to EN ISO 10545-1**			**Resistant** Resiste	**Resistant** Resiste
Moisture expansion (in mm/m)	ISO 10545-10	**Declared value**			≤ 0,01% (0,1mm/m)	≤ 0,01% (0,1mm/m)
Frost resistance	ISO 10545-12	**Pass according to EN ISO 10545-1**			**Resistant** Resiste	**Resistant** Resiste
Bond strength/adhesion for improved cementitious adhesives	EN 1348	**Declared value**			≥ 1,0 N/mm² (Class C2 - EN 12004)	≥ 1,0 N/mm² (Class C2 - EN 12004)
Reaction to fire	-	**Class A1 or $A1_{fl}$**			A1 - $A1_{fl}$	A1 - $A1_{fl}$
Resistance to household chemicals and swimming pool salts	ISO 10545-13	**Minimum Class B**			A	A
Resistance to low concentrations of acids and alkalis		**Declared Class**			LA	LA
Resistance to high concentrations of acids and alkalis		**Declared Class**			HA	-
Resistance to staining, for unglazed tiles	ISO 10545-14	**Declared Class**			5	5

PACKING DETAILS:
